

MICK MESIC

Enterprise Technology Consultant

DXC Technology

Jose is a seasoned IT specialist with an impressive portfolio of professional accomplishments. In his career so far, Jose excelled on highly complex and analytical assignments, servicing clients in both the Public and Private sectors. Some of the notable contributions include large SAP implementations, enterprise level transformations, and cloud migrations. In the role of a senior programmer analyst, Jose demonstrated a unique blend of the skills, including the ability to accurately analyse, model, and interpret data using scientific, methodical, and logical approach, critical thinking coupled with attention to detail and high degree of the problem-solving skills.

Working for a global IT service provider, Jose impressed our clients and colleagues alike with his leadership, dedication and ability to meet deadlines, versatility and proficiency with a number of the contemporary technologies, tools, and programming languages, as well as the ability to implement innovative approaches to solving complex problems. “Can-do, know-how” attitude, extensive IT experience, and highly collaborative nature make Jose an invaluable asset to any IT organization.
